PROFESSIONAL SUMMARY

Frontend-focused Full-Stack Developer with 3+ years of professional experience building enterprise React and TypeScript applications for B2B SaaS in the HR and payroll domain. Strong in reusable UI architecture, complex workflows, responsive interfaces, API integration, state management, and automated testing, with hands-on backend delivery in C#, ASP.NET Core, Dapper, and SQL Server. Experienced with CI/CD and Azure-based delivery workflows, and with building production-ready full-stack TypeScript projects.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, React Router, HTML5, CSS3, SASS/SCSS, Material UI, Tailwind CSS

State & Data: React Context, useReducer, Redux / Redux Toolkit, REST APIs, GraphQL

Testing: Jest, React Testing Library, Vitest, Playwright, MSTest

Backend & Data: C#, ASP.NET Core, Node.js, Express, Fastify, Dapper, Prisma, SQL Server, PostgreSQL, SQLite

Tooling & DevOps: Vite, Webpack, npm, pnpm, Git, Azure DevOps, GitHub Actions, CI/CD, Vercel

PROFESSIONAL EXPERIENCE

Paycor

Jul 2022 - Feb 2026

Medior Full-Stack Developer

Aug 2024 - Feb 2026

- Developed and maintained enterprise React and TypeScript features for a B2B HR and payroll SaaS platform, with emphasis on reusable UI architecture, complex workflows, and maintainable front-end code.
- Built responsive, pixel-accurate interfaces and reusable UI components using MUI and SASS/SCSS, following shared design-system and Figma specifications.
- Managed complex state and user flows with React Context, useReducer, and Redux, and integrated UI features with REST and GraphQL APIs.
- Wrote and maintained unit, integration, and end-to-end tests using Jest, React Testing Library, and Playwright to support regression-safe delivery.
- Implemented ASP.NET Core REST endpoints using Dapper and SQL Server, supporting end-to-end feature delivery and service-contract alignment.
- Worked with Vite, Webpack, npm, monorepo workflows, Azure DevOps pipelines, DAPS, and multi-environment deployments.

Junior Full-Stack Developer

Nov 2022 - Aug 2024

- Built responsive React interfaces and reusable controls for internal applications, including inputs, dropdowns, modals, and form workflows.
- Integrated frontend applications with REST APIs and React Router, and maintained unit tests with Jest and React Testing Library.
- Built and maintained ASP.NET Core REST APIs with Dapper and SQL Server, with MSTest coverage for service stability.
- Collaborated with domain teams and designers in Agile/Scrum to troubleshoot UI issues, refine workflows, and deliver sprint commitments.

Software Development Intern

Jul 2022 - Nov 2022

- Supported internal UI forms and documentation-related features for client data management.
- Debugged and refined Product Backlog Items, including UI text updates and employee sorting functionality.

SELECTED PROJECTS

Fluxo - AI-Powered Personal Finance Dashboard | [GitHub](#)

- Built an end-to-end TypeScript monorepo with React 19, Redux Toolkit/RTK Query, Fastify, Prisma, PostgreSQL, and shared Zod schemas.
- Implemented production-style JWT/HTTP-only-cookie authentication, multi-tenant data isolation, budgets, savings goals, transaction workflows, and streaming Claude AI insights via Server-Sent Events.

PeopleOps Admin Portal | [GitHub](#)

- Built a responsive enterprise-style HR admin dashboard with feature-based architecture, reusable UI components, accessible navigation, URL-synced filters, CSV export, command palette, and theme persistence.
- Added Vitest/React Testing Library coverage, Playwright smoke tests, GitHub Actions CI, route-level lazy loading, and production deployment on Vercel.

Employee Management App | [GitHub](#)

- Built a React/TypeScript + Express + SQLite application with employee CRUD and salary-update flows, Zod validation, prepared statements, and explicit loading, error, and not-found states.
- Implemented browser-native screen sharing and recording with getDisplayMedia, MediaRecorder, MediaStream lifecycle handling, local WebM preview, and download.

EDUCATION

Master of Science in Information Technology (part-time)	2021 - Present
Information Technology School, Belgrade	
Bachelor of Science in Information Technology	2014 - 2018
Information Technology School, Belgrade
